On Aug. 24, 2016, the corporation's ownership interest in the AWE Management Limited (AWE) joint venture increased from 33 percent to 51 percent and the corporation was required to change its accounting for this investment from the equity method to consolidation. As a result of the increased ownership interest, the corporation recognized a non-cash gain of \$127 million at its Space business segment, which increased net earnings from continuing operations by \$104 million (\$0.34 per share) in the year ended Dec. 31, 2016.

<sup>&</sup>lt;sup>2</sup> In the fourth quarter of 2017, the corporation recognized a previously deferred non-cash gain of \$198 million related to properties sold in 2015 as a result of completing its remaining obligations, which increased net earnings from continuing operations by \$122 million (\$0.43 per share in the fourth quarter and \$0.42 per share in 2017).

<sup>&</sup>lt;sup>3</sup> In the fourth quarter of 2017, the corporation recorded a net one-time charge of \$1.9 billion (\$6.80 per share in the fourth quarter and \$6.69 per share in 2017), substantially all of which was non-cash, primarily related to the estimated impacts of the Tax Cuts and Jobs Act. For additional information regarding the one-time charge, refer to the "Income Taxes" section of this news release.

<sup>&</sup>lt;sup>4</sup> On Aug. 16, 2016, the corporation completed the divestiture of its former Information Systems & Global Solutions (IS&GS) business. Accordingly, the operating results of IS&GS and the \$1.2 billion initial gain on the divestiture have been classified as discontinued operations in the year ended Dec. 31, 2016. In the fourth quarter of 2017 the corporation recognized an additional gain on discontinued operations of \$73 million, which reflects certain post-closing adjustments, including certain tax adjustments and the final determination of net working capital.

<sup>&</sup>lt;sup>5</sup> The corporation incurred a net loss in the fourth quarter of 2017 causing inclusion of any potentially dilutive securities to have an anti-dilutive effect, resulting in the weighted average shares outstanding for basic and dilutive earnings per share being equivalent during the quarter. As a result the corporation's net loss in the fourth quarter of 2017, diluted earnings per share for the quarters of 2017 will not equal the earnings per share amount on the consolidated statements of earnings.

The deficit in equity was predominantly due to a \$1.9 billion net one-time charge primarily due to the enactment of the Tax Act and the annual Dec. 31, 2017, re-measurement adjustment related to our postretirement benefit plans of \$1.4 billion. Under Maryland law, if a corporation has a deficit in equity, it is still able to pay dividends and make share repurchases in an amount limited to its net earnings in either the current or the preceding fiscal year or from the net earnings for the preceding eight quarters and if it is otherwise able to pay its debts as these come due

At Dec. 31, 2017, the corporation recognized a non-cash, after-tax reduction to stockholders' equity of \$1.4 billion as a result of the year-end remeasurement of its postretirement benefit plans. Partially offsetting this reduction was an \$802 million recognition of previously deferred amounts. The reduction to stockholders' equity was primarily due to a lower discount rate at Dec. 31, 2017 of 3.625 percent as compared to 4.125 percent at Dec. 31, 2016.

<sup>&</sup>lt;sup>2</sup> Represents dividends of \$2.00 per share declared for the fourth quarter of 2017 and \$1.82 per share declared for the first, second and third quarters of 2017.

The deficit in equity was predominantly due to a \$1.9 billion net one-time charge primarily due to the enactment of the Tax Act and the annual Dec. 31, 2017, re-measurement adjustment related to our postretirement benefit plans of \$1.4 billion. Under Maryland law, if a corporation has a deficit in equity, it is still able to pay dividends and make share repurchases in an amount limited to its net earnings in either the current or the preceding fiscal year or from the net earnings for the preceding eight quarters and if it is otherwise able to pay its debts as these come due.

## **New Accounting Standards**

Effective Jan. 1, 2018, the corporation adopted Accounting Standards Update (ASU) No. 2014-09, *Revenue from Contracts with Customers*, as amended (commonly referred to as ASC 606), which changes the way the corporation recognizes revenue for certain of its customer contracts. On Jan. 1, 2018, the corporation also adopted ASU No. 2017-07, *Compensation-Retirement Benefits*, which changed the income statement classification of certain components of net periodic benefit cost for defined benefit pension and other postretirement plans.

Prior to the adoption of ASC 606, the corporation recognized the majority of its revenue using the percentage-of-completion method of accounting. Based on the nature of products provided or services performed, revenue was recorded using the percentage-of-completion cost-to-cost method or the percentage-of-completion units-of-delivery method. See the Annual Report on Form 10-K for fiscal year ended Dec. 31, 2016 for details on the corporation's revenue recognition policy. Under ASC 606, revenue is recognized as the customer obtains control of the goods or receives benefit from services promised in the contract (i.e., performance obligations). For most of the corporation's contracts, the customer obtains control or receives benefits as we perform on the contract, and under ASC 606, revenue for those contracts is recognized over time using a method similar to the current percentage-of-completion cost-to-cost method. The main impacts of ASC 606 to the corporation are timing of revenue recognition for contracts that were historically accounted for using the percentage-of-completion units-of-delivery method with revenue for these contracts recognized earlier in the performance period as we incur costs. Major programs impacted by ASC 606 include the C-130J and C-5 programs in the Aeronautics business; tactical missile programs (Hellfire and JASSM), Patriot Advanced Capability-3 (PAC-3), and fire control programs (LANTIRN® and SNIPER®) in the Missiles and Fire Control (MFC) business; and the Black Hawk and Seahawk helicopter programs in the Rotary and Mission Systems (RMS) business. Also with the adoption of ASC 606, pro forma backlog was re-measured to reflect the value of performance obligations yet to be completed at Dec. 31, 2017. Please see the backlog attachment to this earnings release for pro forma backlog information. Total net cash provided by operating activities and net cash used by investing and financing activities on our consolidated statements of cash flows are not expected to be impacted by the adoptio

The new accounting standard, *Compensation-Retirement Benefits*, which the corporation adopted Jan. 1, 2018, changes the income statement presentation of certain components of net periodic benefit cost related to defined benefit pension and other postretirement benefit plans. Currently, we record all components of net periodic benefit costs in operating profit as part of cost of sales. Under ASU No. 2017-07, we will record only the service component of net periodic benefit cost in operating profit and the non-service components of net periodic benefit cost (i.e., interest cost, expected return on plan assets, amortization of prior service cost or credits, and net actuarial gains or losses) as part of non-operating income.

The financial results reported in the news release for fiscal years ended Dec. 31, 2016 and 2017 do not reflect the accounting changes required by these standards as the corporation did not adopt them until Jan. 1, 2018. However, the Financial Outlook and supplemental tables included in the news release include pro forma financial information, which reflect the accounting changes of these new accounting standards to help understand the 2018 Financial Outlook.

Primarily reflects adjustments for contracts that were historically accounted for using the percentage-of-completion units-of-delivery method, which under ASC 606 are recognized as the customer obtains control of the goods and services promised in the contract. The major programs impacted by ASC 606 listed by business segment are as follows: Aeronautics (C-130J and C-5 programs); Missiles and Fire Control (Hellfire, JASSM, PAC-3, LANTIRN® and SNIPER® programs); Rotary and Mission Systems (Black Hawk and Seahawk helicopter programs); and Space (commercial satellite programs).

<sup>&</sup>lt;sup>2</sup> In the fourth quarter of 2017, the corporation recorded a net one-time charge of \$1.9 billion (\$6.69 per share in 2017 on a GAAP historical basis and \$6.74 per share in 2017 on a pro forma adjusted basis), substantially all of which was non-cash, primarily related to the estimated impacts of the Tax Cuts and Jobs Act. For additional information regarding the one-time charge, refer to the "Income Taxes" section of this news release.
