¹ The corporation closes its books and records on the last Sunday of the calendar quarter to align its financial closing with its business processes, which was on Sept. 27 for the third quarter of 2020 and Sept. 29 for the third quarter of 2019. The consolidated financial statements and tables of financial information included herein are labeled based on that convention. This practice only affects interim periods, as the corporation's fiscal year ends on Dec. 31.

² In the first nine months of 2020, the corporation recognized a non-cash impairment charge of \$128 million (\$96 million, or \$0.34 per share, after tax) for its investment in the international equity method investee, Advanced Military Maintenance, Repair and Overhaul Center (AMMROC).

³ In the first nine months of 2019, the corporation recognized a previously deferred non-cash gain of \$51 million (\$38 million, or \$0.13 per share, after tax) related to properties sold in 2015 as a result of completing its remaining obligations.

⁴ Net earnings for the third quarter and the first nine months of 2019 included a benefit of approximately \$62 million (\$0.22 per share) and \$127 million (\$0.45 per share), respectively, from the discrete recording of additional tax deductions related to 2018, primarily attributable to foreign derived intangible income treatment based on proposed tax regulations released on March 4, 2019, and a change in tax accounting method. See "Income Taxes" section for further discussion.

⁵ Net loss from discontinued operations for the third quarter and the first nine months of 2020 includes a \$55 million (\$0.20 per share) non-cash charge resulting from the resolution of certain tax matters related to the former IS&GS business divested in 2016.

- 1 The corporation projects FAS pension income in 2020, compared to FAS pension expense in 2019, as a result of completing the planned freeze of its salaried pension plans effective Jan. 1, 2020, that was previously announced on July 1, 2014. The corporation's FAS pension expense is comprised of service cost, interest cost, expected return on plan assets, amortization of prior service credit, and amortization of actuarial losses. The service cost and amortization of actuarial losses components of FAS pension expense are significantly lower due to the freeze. As a result, the expected return on plan assets and amortization of prior service credit exceed all other FAS pension expense components in 2020. For additional information regarding the corporation's FAS pension expense or income and CAS pension cost, see the corporation's Annual Report on Form 10-K for the year ended Dec. 31, 2019.
- The corporation records the non-service cost components of net periodic benefit cost as part of other non-operating income (expense) in the consolidated statement of earnings. The non-service cost components in the table above relate only to the corporation's qualified defined benefit pension plans. The corporation expects total non-service income (cost) for its qualified defined benefit pension plans in the table above, along with non-service cost for its other postretirement benefit plans of \$30 million, to total non-service credit of \$185 million for 2020. The corporation recorded non-service cost for its other postretirement benefit plans of \$116 million in 2019, in addition to its total non-service cost for its qualified defined benefit pension plans in the table above, for a total of \$693 million in 2019.
