Forward Looking Statements

Our presentation contains “forward-looking statements” or projections based on Lockheed Martin’s current expectations and assumptions. These statements are not guarantees of future performance and are subject to risks and uncertainties. Actual results could differ materially due to factors such as: the availability of government funding and budgetary constraints; changes in customer priorities; quantity revisions to the F-35 program; return or loss on benefit plan assets, interest rates, and other changes that may affect benefit plan assumptions; the effect of capitalization changes (such as share repurchase activity, advanced pension funding, option exercises, or debt levels); the allowability of costs under government cost accounting standards; the outcome of legal proceedings; the future impact of acquisitions, divestitures or joint ventures; the timing and availability of future government awards; economic, business and regulatory conditions and other factors. We disclaim any duty to update forward-looking statements to reflect new developments.

Our SEC filings (found at www.lockheedmartin.com or at www.sec.gov), including our 2011 Form 10-K, contain more information on the types of risks and other factors that could adversely affect these statements.

2012 Financial Results are Unaudited
1Q Overview

• Increased Sales 6%

• Expanded Segment Operating Margin* to 11.9% in 1Q 2012 vs. 11.0% in 1Q 2011

• Increased EPS From Continuing Operations By 29%

• Generated $458M Cash From Operations After Making $505M Pension Contribution

• Increased 2012 Segment Operating Profit Outlook

*See Chart 13 for Definitions of Non-GAAP Measures

Strong Start To 2012
Total Sales Growth Of 6% ... On Track To Meet Full Year Guidance
Margins Stable or Expanding Across all Business Areas…
Improvement Driven by Electronic Systems Risk Retirement Timing
1Q Earnings Per Share

**EPS Growth Driven By Strong Operational Performance**

Definitions of Non-GAAP Measures

Non-GAAP Financial Measures Disclosure
This presentation, and today’s conference call remarks, contain non-Generally Accepted Accounting Principles (GAAP) financial measures (as defined by SEC Regulation G). While we believe that these non-GAAP financial measures may be useful in evaluating Lockheed Martin, this information should be considered supplemental and is not a substitute for financial information prepared in accordance with GAAP. In addition, our definitions for non-GAAP measures may differ from similarly titled measures used by other companies or analysts.

Segment Operating Profit / Margin
Segment Operating Profit represents the total earnings from our business segments before unallocated corporate income and expense, interest expense, other non-operating income and expense, and income tax expense. This measure is used by our senior management in evaluating the performance of our business segments. The caption “Unallocated Corp Inc / (Exp)” reconciles Segment Operating Profit to consolidated Operating Profit. Segment Margin is calculated by dividing Segment Operating Profit by Sales. Mid-point Segment Margin represents the mid-point of the outlook range for Segment Operating Profit divided by the mid-point of the outlook range for Sales.

Pension-Adjusted Earnings Per Share
Lockheed Martin defines adjusted earnings per share as GAAP earnings per share excluding the effect of the FAS/CAS pension adjustment. Management uses these measures as an additional means to compare and forecast the company’s operating performance before the effect of the FAS/CAS pension adjustment between periods and in comparison to that of other companies within our industry as an alternative to GAAP.
